RYAN QUESTIONED ABOUT ST. PAUL

Says His Enthusiasm for Project May Have Been Factor, but Rockefeller Originated Plan.

RAIL DIRECTORS IN **POWER COMPANIES**

Copper Magnate Says Contracts Have Proved Profitable for Electric Concerns, Not Railroad.

By Leased Wire From the New York Bureau of the Post-Dispatch. NEW YORK, April 15 .- The fiancial wreck of the Chicago, Milwaukee and b. Paul Railroad could not have been avoided, John D. Ryan testified before Interstate Commerce Commissioner Cox. He-defended electrification of the ountain sections of the Puget ound eleensions

As a minor part of his vast in terests, Ryan is a director of the

After copper, silver and zinc, hisnthuslasm and efforts have gone into the development of electrical power. Soon after he became a director of the St. Paul the rall-road electrified its Puget Sound extension, a project which, it is alleged, was financially disastrous. The St. Paul in a sense is a com munity project. Representatives of the State of Wisconsin by law sit upon its board. Yesterday Attorney-General Grady of that State tried to find out how it was that power from Ryan's Montana Power Co. to the apparently great profit of the latter. He asked if it were not a strange coincidence that the St. Paul took up electrification of the Puget Sound extension soon after Ryan became a director.
Rockefeller Originated Plan.

"Well, I was very enthusiastic about electrification of railroads, and that may have had something to do with it," Ryan said. maintained, however, that the project originated with William Rockefeller and J. J. Earling, for-

mer president of the St. Paul. Then Grady went into the ar-rangement by which the electrifishowed that the Thompson Falls Power Co. was purchased from the St. Paul in 1903 for \$950,000 by the Montana Power Co., controlled by Ryan. It was placed on the Monset of \$5,000,000, and last year earned 5 1/2 per cent on that capital-

ization.

Ryan admitted this, but said the Thompson Falls Power Co.'s profits were derived from other business than that with the St. Paul.
Then Grady asked about the
Great Falls Terminal, which the
St. Paul built at a cost of \$1,000.

"I don't know how much it cost."
Ryan said, "but Great Falls deserves a good station."

"You are the owner of the townsite there, aren't you?" was the next question. Ryan said he was. The contracts between the St. Paul and the power companies were discussed. Ryan thought they were mutually advantageous.

Profitable to Power Companies.

"But, as a matter of fact," said Grady. "the power companies are inding the contracts profitable and he railroad isn't." "Yes, that's true," was the re-

Grady questioned the propriety f directors of the St. Paul being largely interested in the power companies from which the St. Paul s obliged to buy its electricity. He said seven directors had such inrests. Ryan said that if this were the case, some of the directors should resign. He explained that t was difficult to attract men of he requisite ability to the raffroad board of directors, since the \$20 gold piece which they receive at each meeting is not much of an

Though it is only 57 years ago hat a stone box was placed in the cornerstone of the old Second Presbyterian Church at Seventeenth and Locust streets, at the dedication, its contents had been completely forgotten by the five remaining persons who saw the cor-

Last aight the congregation at services saw Mrs. Mary Souther of Oberlin, Mo., one of the five, open the box. In it were a copy of the Missouri Democrat, dated Nov. 27, 1868, and one of the church organ, The Presbyterian, dated March 13. 1869; the confession of faith of the Presbyterian Church; the minutes of a Presbyterian convention of 1868; a portrait of the Rev. William Potts, founder of the Second Presbyterian Church, and one of Dr. Samuel L. Niccolls, its pastor when the old bulding was built; a 2-cent coin; a 3-cent paper piece; a 3 and a 2-cent stamp of those years; and a letter wrtten by Dr. Niccolls, giving a history of the church up to that time. The articles were not yellowed or tarnished.
Dr. Nicholls' letter reads in part:

"This cornerstone was laid Tues-day afternoon, at 4 p. m., March The old church edifice, located at Fifth and Walnut streets was sold, and possession given to David Nicholson, July 1, 1868. . . . Cost of the chapel and church was \$130,000. The cost of the lot was \$30,000. . . . We build in Jesus Christ, and we hope to worship in His temple when this shall be destroyed."

The value of the church property had increased to \$75,000 by 1924, when it was sold by the Scottish Rite order, who bought it in 1899. An office building to cost \$450,000 will go up on the site.

Giovanni Martinelli Howard Hall, The Principia April 17

THERE is a finish about Martinelli's singing that has won him a host of admirers-a masculine strength about the beauty of his voice that is essentially peculiar to him. You must hear him to appreciate him. And you must hear him to appreciate the marvelous reproduction of his voice on the new Orthophonic Victrola. In its ability to record with fidelity notes never heard before, this great instrument materializes for you the very character of Martinelli's singing. SMITH, LEADER OF HERRIN KLAN, IS

Following His Escape From Death in Tuesday Clash, Garage Proprietor Says He Will Leave Town.

HERRIN, Ill., April 18 .- John mith, leader of Herrin's straight shooting klansmen, says he is

Following his escape from the fate which befell three of his followers in the fight in which three anti-klan men were also killed at polling place Tuesday afternoon. Smith has decided to leave Herrin.

Residents of Herrin feel that Smith's departure would be more likely to result in peace than anyhing else that could happen. Smith is not blamed here for Tuesday's outbreak, which had the appearance of an attack directed at him ith the purpose of taking his life But it is felt that, so long as Smith remains, new attacks are probable with resultant killings and further

harm to the community.

Smith shares this feeling. Since S. Glenn Young was killed in January, 1925, Smith has recognized hat his own life was the principal thing sought by the men who fought Young in the liquor-raiding campaign of 1924-25. He has said so, though not in a boastful way: a those who have talked to him Despite his latest escape, and an ven more remarkable escape in he battle at his garage in August 1924. Smith has no illusion that he bears a charmed life.

"They would get me next time," he said today. "I am going to eave, to keep from getting killed and to keep from killing anyone. He Never Shot Anyone.

"In all the liquor raids," Smith entinued. "I never shot anyone, The raiding ended more than a year ago, and today I wouldn't start a raid if they put a saloon next door to me. But the liquor gang has kept after me, and today y business is ruined, for people are afraid to come to my place to

Smith showed visitors, who assed the inspection of uards at his garage, his sleeping oft in the garage. Since the killng of Young, Smith has seldon ept elsewhere. His wife and three ildren are not now in Herrin.

He said he believed he had a aim against the city of Herrin and Williamson County for failure o protect him. He thinks it likely he will go to Florida.

The Coroner's inquest into the The fact that the three antiklan fighters, who were aggressors the fight at the Fourth Ward polling place, were nonresident of Herrin, has caused the klan symathizers to contend that an out side plot of intimidation and was aimed at Smith and oth ers, including Mack and Ben Size re, who were killed. One of th Briggs, or Brown, of East St. Louis is believed to have been with Jack skelcher in the attack on Glen: Young in the summer of 1934 then Young was wounded and nis wife's eyesight was destroyed Skeicher was killed by klansmet

his return to Herrin. Triple Funeral Tomorrow.

Tomorrow is also set as the time or the funeral of the three slain klansmen. Mack and Ben Sizemore and Harland Ford. A single serv ice will be held in the Christian Church at 3 p. m., with the Rev. J. E. Story, pastor, officiating. National guardsmen will be on duty at the church.

Briggs' funeral was held this afternoon at Marion, his former

Lieutenant-Colonel Robert Davis said the 90 soldiers now here under his command would probably be withdrawn after the funerals and the inquest. A request has been made that they remain until after

Col. Davis called attention today shown on both sides in the polling deaths, no one was wounded. John Smith was slightly wounded in an earlier street encounter, but he was

TOHIS IS THE FIRST CHAPTER IN STHE STORY OF A NEWSPAPE

· · · entitled to be ranked among the

great newspapers
of the country"

Hubants Halley
CHANCELLOR WASHINGTON UNIVERSITY

A newspaper should be respected in all walks of life for courage. It should be esteemed by all parties for fairness. This was the conception of newspaper making projected by Joseph Pulitzer, who in 1878 founded the St. Louis Post-Dispatch, and it is by adherence to these principles the Post-Dispatch has become great.

There are many kinds of newspapers in the United States, but this kind alone enjoys the acclaim of thinking men. That the Post-Dispatch is such a newspaper is less credible out of our own mouth than the mouths of others.

In the series to follow, eminent Americans—men who know the press and its function—who know that eternal vigilance is indeed the price of liberty—tell what they think of this newspaper. The Post-Dispatch is independently Democratic; there appears on this page what an eminent Republican thinks of it.

Herbert S. Hadley—former Republican Governor of Missouri, Chancellor of Washington University, a national political and educational figure, who has known the Post-Dispatch throughout his public career, says:

"I have known and have read the St. Louis Post-Dispatch for over twenty years, and I have always felt that it was entitled to be ranked among the great newpapers of the country.

"True to the ideal of its great founder, it is concerned in something more than 'merely publishing news.' It has been and is an effective agency for the expression and moulding of public opinion. I have particularly admired its courageous aggressiveness in protecting public interests. I have not always agreed and do not agree now with all its editorial positions on public questions, but the force and definiteness of its advocacy and its fairness in being willing to give the other side command approval.

"Can we not feel something of renewed confidence in American democracy that the Post-Dispatch by such a policy has won its success and power?"

Unless properly treated it has a persistent tendency to reappear, and often more virulent form, with possible in more virulent form, with possible loss of hair or even total baidness. The treatment to check dandruff re-quires constant desnliness and the use of a suitable antiseptic solution to combat the disease and to heal the

It's a danger signal!

DANDRUFF is a danger signal. If you have plicated. You simply douse it on your scalp, it you should do something about it.

Perhaps you never knew it before, but dandruff is a germ disease. It spreads by infection from personal contact, as with the common use of combs and brushes. Children, for instance, are never troubled with dandruff until actually infected by some contact.

Dandruff is a disease difficult to cure but easy to check. It has a tendency to reappear, unless properly treated, and often brings with it the possible loss of hair or actual baldness.

The ideal treatment to combat dandruff conditions is the systematic use of Listerine, the safe antiseptic.

We have received hundreds of unsolicited letters from Listerine users, who are most enthusiastic in their claims for what Listerine will do in this way. If you are troubled with dandruff you owe it to yourself to try it.

The use of Listerine for dandruff is not com-

full strength, and massage thoroughly. The effect is antiseptic, cleansing and healing. And you will be amazed to see how this treatment, followed systematically, combats dandruff.

Moreover, Listerine will not discolor the hair nor will it stain fabrics.

Not only men but women have become devoted users of Listerine for this purposewomen, particularly, since bobbed hair has been in vogue and has made them more conscious of dandruff if it happened to be present.

Try Listerine some evening when your scalp feels tired and itchy. Dandruff is probably causing the trouble. Apply it generously and then massage vigorously. You will find it a stimulating tonic for the scalp, and in addition to combating dandruff, you will find that it adds that luster and softness to the hair that is so important a part of being well-groomed. -Lambert Pharmacal Co., St. Louis, U.S.A.

DRIVER KIDNAPED, \$37,500 BELIEVED TO HAVE BEEN STOLEN

Employe of Indiana Harbor Postoffice Escapes When Truck Stalls Near Joliet, Ill,

CHICAGO, April 15 .- An autonobile stalled on a hill near Joliet, Ill., ended a wild flight from In diana yesterday following the robpery of a mail truck at the rear of he Indiana Harbor postoffice.

The robber escaped after forcing Frank Watson, driver of the truck, whom he had kidnaped at the scene of the holdup, to help push the car into a garage. And with him went the contents of the two mail sacks taken from the truck, and believed contain \$37,500.

Although witnesses said they saw wo men hold up Watson and force nim into the automobile, Watson He told Joliet police that the bandit offered him \$200 if he would keep still and threatened his life when he refused. Watson esaped while his captor was talking a garage man.

Officials of the Federal Reserve Sank, which had shipped \$37,500 o an Indiana Harbor bank, were nable to ascertain whether the oney was in one of the stolen sacks. The two pouches were re vered in a road near Joliet. One f them was found near the truck pandoned by the robber and conained more than a score of piece The which had contained the money was found ripped on a road leading from Indiana Harbor to Joliet

SPRING SONG.

"Is the lady of the house in? It was the first bird of Summer-It came and it went; And this in due season Became its lament:

I've been and I've gone. nd I've gone and I've been, Both forward and backward Until it's a sin.

I have wakened the morning When Spring was aglow And fied before even

I have sung through the dusk In perennial glee, And waked to find out

I was froze to the tree.

I've made for y round trips Between here and Mobile, From which it is likely You know how I feel

I have even had worms Fully three-quarters out And been driven by cold waves

I'm defeated, disgusted, Sung out and defunct.
And as far as my part goes

The season is junked. It was the first bird of Summer-It came and it went:

Became its lament Sir. The oration on Jefferson by Claude-

Bowers, historian and member of the New York World staff, was an excellent effort, but-Mr. Bowers is quo'ed as saying: "Even

as a boy he (Jefferson) was unable to ead the novels of Scott because of his abhorrence of feudalism." Sir Walter Scott was born in 1771 and

died in 1832. His first literary effort, two short poems, appeared about 1796. Most of his novels were written during the last 25 years of his life, 1806-32. Thomas Jefferson was born in 1743 and died in 1826. Jefferson must have been nspired to write the Declaration of Independence while playing the game of leapfrog. Some boy-that Thomas. Sir: Due to the boastful babbling of the representatives of various low frog centers, the inhabitants of Frogtown are incensed, and unless something is done to put these scums of the countryside in their rightfulplace there'll be more than one croaking

We, the indignant offspring of the amphibious originators of the Frog Kingdom, have organized a gang of Croakers to see that this is done.

For your information, and the enlightenment of any misguided cut-throats, we beg to state that the original frog settlement of the Middle West lies here on the banks of the Mississippi near Carondelet, and that those Vinita Park, Meramec River and Florissant Valley frogs are descendants of no-account frogs who were banished from Frogtown years ago because they failed to ive up to the laws of this community Court records here show that the fore-

fathers of the Vinita Park frogs were ostracized for frequenting stagnant pools and cetting a reputation for insobriety. The Meramec River frogs associated with mud turtles until they became the scandal of the community and the Town Council sentenced them to the Meramec River mud holes for eternity. As for those "proud old frogs" out Ferguson way, well, even a hardened old croaker has too much pride in his ancestry to confess what culprits they were. The fishes could tell some tales if they wanted to, but they are still hiding their faces for shame.

As for the representative of the Associated

Frog Tamers' Association, he will have more than the frog in his throat if he doesn't stop his leg-pulling tactics. Signed, THE CROAKERS. (And we mean what we say.)

T is clear that operetta, with its cathedr extensive use of spoken text ermits a style of acting more flexible and detailed than that of grand opera, with its constant and exigent singing. By applying the gown w "Carmen," last night at the Odeon, Miss Lorna Doone Jackson achieved and be a portrait of the heroine which was no doubt miniature, but which was novel, and singularly piquant and charming. Ine white line is the CLOROX line:

THAT is the simple story behind the line of snowy clothes you see in your neighbor's yard - the clothes that make you think immediately, "I wish my laundry might look like that! I wonder how she does it." It is no deep, dark secret - it merely means that your neighbor uses CLOROX!

For CLOROX is the magic bleach! To get the best results in laundering, use with cold water in the proportion of one tablespoonful of CLOROX to each gallon of water. Add your favorite soap or washing powder, and stir well to

insure even distribution of the CLOROX. Then soak your white clothes in this solution for 30 minutes, or if more convenient, for several hours or overnight.

However, CLOROX is just as effective when used in the first rinsing water; and many housewives prefer this method. Use the same proportion of this bottled magic, let the clothes remain in the solution, for half an hour, then rinse thoroughly in clear, cold water. In this simple, inexpensive way all white cotton, linen and mercerized laundry may be kept as white and spotless as the day you bought them!

Let CLOROX aid you on wash day and every other day. Order a bottle from your grocer; complete directions on the label will tell you how to use this wonderworking product!

EIGHTY MILES PER HOUR

CHRYSLER IMPERIAL

PERFORMANCE **SUPREME**

To describe the new Chrysler Imperial "80" in terms of speed—and it is easily capable of eighty miles, and more per hour -would fail to do full justice to the sum total of its new luxury and finality of performance. Eighty miles an hour is the label of a new conception of virtually limitless power-power which moves the Imperial "80" with inconceivable smoothness and ease from a snail's pace to cannon ball speed. And always, at any gait, without strain, fatigue or discomfort. The Imperial "80" is a marked contrast in superiority to even the finest you may have known. And Chrysler quality gives the completest assurance of the year after year maintenance of its superiority.

Is Mussolini Building a New Italian Empire?

Mussolini, the Italian dictator, is trying to form an anti-German bloc of Italy and the - Balkan States, it is charged by some German writers, and the chief purpose of this bloc would be to prevent the union of Austria and Germany.

There is probably no man living to-day who is causing more concern to the chancel-Ieries throughout the world than Mussolini. He has been charged with having the ambitions of Caesar, and to fulfil his ambitions he would stop at nothing—so say his enemies.

That he has Jugo-Slavia's support is obvious, we are told, from the recently concluded treaty between Italy and Jugo-Slavia. What is more, according to a special correspondent of the London Westminster Gazette, Mussolini's object in all the combinations he is engineering in Jugo-Slavia, Greece, and other South and Central European nations, is to obtain at least the benevolent neutrality of his neighbors in connection with his great "Empire" projects in the Middle East.

A leading article in THE LITERARY DIGEST this week, in text and picture, gives an illuminating insight into the political turmoil in Europe. It brings out in sharp contrast all the opposing elements so that the average man will understand the situation clearly.

This is only one of the many instructive and interesting news-features in THE DIGEST this week. Among others are:

NORMAN THOMAS HELD

New York Governor Arrested Near Passaic, N. J.

cial to the Post-Dispatch GARFIELD, N. J., April 15 .-

Norman Thomas, one time Socialist candidate for Governor and for Mayor of New York, was arrested yesterday in Garfield, N. J., as he stood in the crotch of an apple tree on vacant land and attacked what he called "unconstitutional police measures" to end the New Jersey textile strike. He spent last night in the Hackensack jail, unable to furnish \$10,000 bail in which he was held by Justice of the Peace Hargreaves on the charge of unlawful assemblage.

His arrest was not unexpected, for he had come to Garfield at the request of the American Civil Liberties Union for the purpose of making a test case against alleged llegal measures used by Sheriff Nimmo to enforce the riot law in Bergen County.

For five or six minutes, Thomas, perched in the tree two or three eet above the heads of his audience-a group of New Yorkers and handful of strikers-talked of he strike in general terms. On men, while in a nearby automobile sat Under-Sheriff John A. Donaldand half a dozen deputies.

Thomas gradually warmed up to Albert Weisberd, strike leader, who is held on \$20,000 bail charges of inciting to riot. "The fixing of that high bail a mockery of American justice,"

homas declared. 'Cleam 'Em Out," Said Deputy. Under-Sheriff Donaldson reached for an inside pocket, dragged out a police whistle and blew a sharp

While police and deputies drove the audience from the land which the Civil Liberties Union had rented for \$10, Deputy Mat Donahue, with shotgun under his arm, walked to the apple tree and told Thomas he was under arrest. Thomas jumped to the ground and was taken to Hackensack in Don-aldson's machine. He will be given a hearing today by Justice Har

Charges by the Civil Liberties Union that the Sheriff and his men are unable to distinguish between the rigorous provisions of martial law and the less strict measures of riot act law gained some support when Under Sheriff Donaldson, after the meeting had been broken up, said.

"Martiat law will continue to exist until the riot act is recalled by the Sheriff. We don't care whether the strikers are right or wrong. We're here to preserve order and we can get plenty more deputies if necessary."

He also revealed that Sheriff Nimmo has stored machine guns in the Forstmann and Huffmann mills in Garfield. The Sheriff fears rioting in front of the mills. Charges by the committee that Frank Bibo, a Garfield textile striker, who died yesterday, had been beaten to death Monday in the confusion that followed the reading of the riot act by Sheriff Nimmo were proven unfounded when Dr. W. E. Ogden, county

physician, and Dr. Daniel H. Tellnan of Passaic reported after an autopsy that death was due to natural causes. Eight strikers were arrested in Lodi, after a fight with Negro workers in front of the United Piece Dye Works, and sentenced to serve ten days in jail by Magis-

Mosbach, Germany, April 15. Grover C. Bengdoll, the American draft evader, has got out of still another snarl. Charged with still another snarl. Charged what seduction and impairing the morals of minors, the son of the former Philadelphia (Pa.) between was acquitted of the charge after one session of court, although the State had carefully gathered evidence by which it hoped it would be able to convict him.

to convict him.

The penalty for convection of the charges would have meant im-prisonment of from one to My years for each offense. A phycho-analyst, Prof. Hans Gruhe of the University of Heidelberg, in behalf of Bergdoll, said that he had ex-amined 17-year-old Leisel Schmidt, chief witness against Bergdoll, and was convinced that she was of 'subnormal mentality and untrus'

The girl herself, in testifying was unable to convince the Court that Bergdoll had made an attack upon her three years ago. Robert P. Sachs, alleged to be a private detective of Philadelphia, and who lodged the compaint against Bergdoll, was not in court.

When the Court pronounced Bergdoll not guilty he declared that he was through with Americans, "because they have hounded me by underhand methods, such as the employment of Sachs, and tried to throw me in jail." He added that he would bring a suit for damages and libel against Sachs. After leaving the court, Bergdoll bought a bottle of wine for every policeman and court official and entered his automobile and drove to Karlsruhe.

Skull Fractured by Robber. John Tabvich, 36 years old, of Youngstown, O., was found at Twenty-first and Wash streets at a. m. today, suffering from skull fracture and severe lacerations. He said he was assaulted at Seven-teenth and Wash streets by a Newith a brick, in an attempt to rob him. The Negro fled empty-handed when he resisted, he said.

"ARE YOU FOR BIG BUSINESS OR FOR THE PEOPLE?

A reader asked this question. His letter was dated Oberlin, Ohio. The editor of NATION'S BUSINESS wrote to him in reply: "Before answering, we should like to ask you a question in turn. We don't know the size of your business; we don't know if it is \$10,000 or \$50,000 a year. We don't know if you are satisfied with it, or whether-in common with most normal Americans-you are putting forth greater efforts to attain greater things.

"But, as you go ahead, where is the dividing line that marks the danger to society?

"Where does your honorable business become dishonorable on account of its bigness? At what point does success become sinister?

"Just west of Oberlin is a farmer. named Jones, crippled by paralysis since a baby, who made such good sausage that today he ships it into every State. Just east of Oberlin, a Mr. Davey took such good care of his neighbors' trees that the nation heard of him and his work, and beat a path to his door. And to the northeast, a poor candy-maker named White, in Cleveland, observed us chewing sticks and straws, capitalized this idiosyncrasy, and built up the chewing gum industry.

"At what point did Mr. Jones leave off being a good citizen -was it when he extended his business outside his village, his county, or his State? At what point did Mr. Davey become a menace—when he started to doctor trees outside of Kent, or outside of Ohio? And Mr. White? As he peddled his gum from store to store, he was not a pernicious Big Businessman. At what stage

Wall Street district did he lay aside his virtue and fair dealing?

"What are we fathers to tell our small boys, who are already dreaming big dreams of accomplishment, spurred on by everybody to 'get ahead,' 'be suc' cessful'? Must we say to them, 'Thus fu you may travel, and no farther! If you go beyond, you will suffer the slings and arrows of outraged public sentiment You and yours will be crucified as undesirables; politicians will find your most worthy acts have a sinister motive

"If you still insist on an answer to you question: Are you for Big Business or for the People? we shall have to say: 'Wear for both.' And we are for Small Busness too-the small business which sees a shining goal, and strives to attain it. Don't take this away from America please, because it is the opportunity of the individual, and individualism is the very heart and soul of America."

NATION'S BUSINESS is a magazin founded on the belief that anythin which is not for the public good is no for the good of business. It is published in Washington by the largest busin organization in the country, and it voice es authoritatively the relationship of on business to another and of all business to government.

TN a business where competition I never "closes an eye" you will find that even the floors are planned as an aid to sales. Automobile makers are shrewd

buyers. They seek quality, endurance, reliability. The Studebaker Corporation, for instance, buy floors on a mileage basis. Throughout the branches of their Eastern Division—as a definite sales policy—longwearing floors of Armstrong's Linoleum are being laid.

The fact that Studebaker's are in the automobile business naturally led them to select a floor that "never needs repairs." Sales-making floors

The automobile showroom discloses large expanses of floor space. Naturally such a room demands a truly

beautiful floor-one really in keeping with fine cars and discriminating buyers. The floor you see in the picture is Armstrong's Marble Inlaid Pattern No. 76, laid with a plain black linoleum border. The entire floor was permanently cemented in place over a lining of builders' deadening felt.

Nor were Studebaker's limited in their selection of an Armstrong's Linoleum Floor. The pattern they chose is only one among scores of Armstrong designs

NTERTAINMENT within the home is by far the happiest, and music is indispensable for all such enjoyment.

Whether the surroundings be unassuming or of wealth, music is of universal understanding, and the call to song or dance is given immediate response.

If you have kept up your piano music you have had your children taught to play. Naturally, they have picked up the dance steps. Put on a dance for the children and thus early impress them all with what good times music in the home

If you have neglected your Piano, start to play it again. Look up your music and let the magic of your old favorites again cast their spell. Invite your crowd to a dance and you will have the time of your life, especially if yours is a Player Piano, so anyone may play.

But there is something else that goes with the home dancesomething that folks cannot do in public dancing placesthey can sing!

The satisfaction in making your home a musical center is immeasurable. Children and grown-ups alike will regard it as a haven of delights far removed from the froth of jazz.

If you have no Piano in your home you are losing an advantage in the education of your children for which no other training can compensate.

The student of music early acquires an appreciation of the precision underlying beauty in art that favorably influences the attitude towards all other studies.

Children so reared advance rapidly and, without forfeiting any zest of youth, take on a maturity of judgment compatible with that of their elders.

Buy a Piano. Go to any established Piano store. There you may purchase the standard make of Piano suited to your requirements on payments easy to make out of your income.

Today, Harry was terribly worried. And when Harry is troubled he always turns to me for sympathy. He says I'm so understanding. Tonight, after he had merely pecked at

his dinner, he took me into his study, closed the door, and flopped down in his easy chair. "I'm going to lick this proposition now,"he muttered as he clipped off my tip. "I'm not going to toss over it another sleepless night."

The first few puffs seemed to soothe him. He had found solace in tobacco. Then, he jumped up and fairly danced around the room.

"Just the thing," he exclaimed joyfully. "And the credit goes to Muriel. You can't beat a good cigar for inspiration."

And he might have added: "You can't even tie Muriel's blend, a perfect harmony of finest Havana and lighter tobaccos."

KROYDON DENT-PROOF IRONSof Hardened STEEL

Kroydon Irons are made of forged steel-hardened and heat-treated. Their tensile strength is

By actual scleroscope test they register 60 to 75 degrees of hardness; whereas the best ordinary irons register only 15 to 18 degrees.

Extra Distance

This hardened steel construction permits a slender neck and hozel-with a correspondingly low center of gravity. Most of the weight is concentrated in the lower part

Kroydon Midiron - Model 18 - Price \$6.00 - With Hickory Shaft (Also made with STEEL SHAFT-\$7.50)

Just the club for getting a ball up out of the fairway. Made of high-grade hardened steel, which permits a slender neck and adds weight to the blade, where it will do the most good -without increasing the total weight of the head. This makes for perfect balance, and added hitting power. The face is deep enough to give confidence.

Kroydon Midiron-Model J8-One of three Kroydon Midirons, each the best of its kind that it is possible to produce.

Forged Bronze Kroydon Putter Model S8B-Price \$6.00-With Hickory Shaft This Putter is a model designed on the traditional and ever popular lines—but improved and beautified. It is not cast, as are other bronze and brass putters—butforged, exactly the same manner as Kroydon Irons. In the cast Putters, the necks are seldom straight; due to coring the hozzle. The forging process insures a sole, face, and hozzle which are absolutely true—the first essential of accuracy. The material is bronze—not brass—remarkably beautiful, as well as serviceable.

Drop Forged Bronze Putter-Model S8B-One of eight Kroydon Putters, each the best of its kind that it is possible to produce.

of the blade, which materially increases hitting power. Many players also attribute extra distance to the extreme hardness of Kroydon heat-treated steel head [as compared to ordinary clubs of soft iron].

Natural Balance

The low center of gravity also provides inherent balance and a natural facility for "picking up" the ball.

Proof Against Denting

Players find, with much satisfaction, that the hard and heat-treated soles of these clubs are immune from damage, even when played in stony ground.

Kroydon Mashie - Model NO8-Price \$6.00 - With Hickory Shafe (Also made with STEEL SHAFT - \$7.50)

A new Kroydon Mashie, designed for greater distance than our regular model—and to this end, has 5° less loft. A club that is rapidly growing in popularity. Easy to play. Deep face, slender neck, and rounded heel. Beautifully finished.

Kroydon Mashie-Model NO8-One of three Kroydon Mashies each the best of its kind that it is possible to produce.

Kroydonite, Model 45 Driver, Brassie, Spoon With Hickory Shaft, \$7.00-With Steel Shaft, \$0.00

The head is impregnated with Kroydonite, a new chemical which makes the wood hard as metal, and absolutely waterproof. Dampness can't make this club swell or shrink, and the hardest hitters can't bang it to pieces.

Remember the parable about "hiding your light under a bushel?"

There's a lot of good common sense in that when applied to business.

There's no fake modesty in business and the merchant who has a product of exceptional merit doesn't wait for a special sale week to tell the public about it.

We've been telling you about Weber-Pledged Used Cars right along and we're proud to do it because we've proven that

UNION TRUST COMPANY, CHICAGO, Trustee

Further information has been furnished by Mr. Leonard S. Florsheim, President of the State-Lake Building Corporation, as follows:

SECURITY The bonds will be the direct obligation of the State-Lake Building Corporation, and will be secured by a closed first mortgage on the leasehold estate and the twelve-story completed building of standard fireproof construction, situated at the southwest corner of State and Lake Streets, Chicago. The land was leased for 99 years from August 1, 1917, to July 31, 2016, at an average rental of \$111,961.32 per annum during the term of the lease and \$95,196.00 during the term of this bond issue.

VALUATION The leasehold and building have been inde ly appraised as follows:

| A |
|--|
| Joint Appraisal by Winston & Company and Hall & Ellis, of Chicago: |
| Value of leasehold\$ 832,507.74 |
| Building 2,348,500.00 |
| Total\$3,181,007.74 |
| Appraisal by Dibblee & Manierre, of Chicago: |
| Value of leasehold \$ 814,070.80 |
| Building 2,369,850.00 |
| Building |
| Total \$3,183,920.80 |

On the basis of the lower of the above appraisals, this loan is less than 57% of the value of the mortgaged property.

LOCATION OF PROPERTY

The State-Lake Building has approximately 340 feet of street frontage; 180 feet on North State Street and 160 feet on West Lake Street, in the Chi-

cago loop district, one block north of Marshall Field & Company, and one block south of the new Wacker Drive. The highest property values in Chicago are on State Street, a short distance south of this corner; and the district offers unusual advantages for retail store, theater and office purposes.

EARNINGS

Net earnings, after deductions for operating expenses, taxes and ground rent, available for the payment of interest, were \$198,531.26 in 1923; \$201,-931.15 in 1924, and \$225,576.03 in 1925, according to an audit made by certified public accountants. the management estimates net annual earnings for the year foilowing that date at approximately \$250,-000, or nearly two and one-half times the greatest annual interest charge. The income is derived from leases to tenants in diversified lines of business, including a lease on the theater of \$150,-000 per annum for twenty years to the State-Lake Theatre Realty Co., payment of the rental being guaranteed by the Orpheum Circuit, Inc., whose balance sheet as of December 31, 1925, shows a net worth in excess of \$40,000.000.

OWNERSHIP AND MANAGEMENT The stock of the State-Lake Building Corporation is controlled by a strong group of Chicago business men. Mr. Leonard S. Florsheim is President, and Mr. Raymond Redheffer, Vice-President. The property is under the management of the Real Estate Management Corporation of Chicago.

ANNOUNCEMENT

THE Adair Realty & Mortgage Company of St. Louis announces the opening of its offices in the Boatman's Bank Building for the exclusive distribution of Adair Guaranteed First Mortgage Bonds in this territory.

The ownership of this company is identical with that of the Adair Realty & Trust Company, the South's oldest mortgage investment house and one of the oldest real estate firms in America.

Adair Guaranteed Bonds are created and recommended by the Adair Realty & Trust Company. This company, established in 1865, has been engaged in the real estate and first mortgage investment business for over 60 years and during this period no Adair mortgage has ever caused the loss of a single dollar to any investor.

Adair Guaranteed Bonds are secured (1) by the property against which the mortgage is issued; (2) by the earnings derived from the property; (3) by the resources of the Borrowing Corporation.

In addition, every bond created by the Adair Realty & Trust Company not only carries its recommendation but bears its unconditional guarantee, pledging its entire capital, surplus and profits, exceeding

\$2,500,000, to the payment of both principal and interest. Such evidence of faith and confidence is displayed by few investment houses.

The following guarantee appears on the face of every Adair Bond: "In consideration of the purchase of this bond, Adair

Realty & Trust Company does hereby guarantee the payment of the within bond, both principal and interest, according to the tenor and effect thereof." (Signed) Adair Realty & Trust Company.

The Adair Realty & Trust Company was the first investment house to create and offer a real estate mortgage bond that could be insured against loss at the option of the investor. This insurance can be secured if desired, in addition to the company's guarantee, through one of the oldest and best known surety companies in America, every bond being qualified for insurance.

The Adair Realty & Mortgage Company will offer Adair Guaranteed Bonds exclusively and will render the same efficient and complete service as afforded by the main office of the Adair Realty & Trust Company.

Further information, together with a list of current offerings will be gladly furnished upon request.

OPPOSE CURTAILING POWER OF JUDGES

Bar Committees Object to Bill Prohibitingf Comment From Bench on Evidence.

Opposition to a bill introduced in Congress by Representative Dyer of St. Louis to reduce the powers of Federal Judges by prohibiting them from commenting on . evidence, is expressed in reports adopted by the St. Louis Bar Assoclation's committees on judiciary

The judiciary committee memrecognize the "advantages of the jury system and believe it to be in the interest of its survival that the jury not be denied the benefit of the temperate advice of the judiciary, who enjoy the advantages of experience and learn-ing, which, when used with wisdom and moderation, ought to be potent factors in producing a just verdict," the reports continue.

"We believe this is a peculiarly wrong time to handicap the Judges of the United States Courts, either in dignity or power, or to relieve from the high responsibility which is exacted by the powers and duties

"Your committee does not doubt that the power to comment on the evidence will some time, some by some Judge, be abused, or mistakenly, or, even in rare cases, autocratically used; but the facts of experience in trials point out that a gradual reduction of the Judge to the cipher point neither promotes the administration of justice in the court nor respect for the law without.

"If the trial is to be regarded as a psychological contest, with the forces of humor, pathos and pas-sion in full sway, the reward to the best actor and the devil take the hindmost, then certainly the powers and responsibilities of the Judges ought to be limited to that of umpire or referee.

"It is doubtful whether a jury-man could be found who has ever served upon a criminal case who would not welcome such assistance ents by the Judge)."

Signers of Report.
The Judiciary Committee report was signed by William O. Reeder. Marvin E. Boisseau, Arthur Bader and J. M. Lashly. The one com-mittee member who did not sign the report was Wayne Ely. He was attorney for one of the co victed defendants in the Jack Dahiel whisky conspiracy case, is which it was alleged the trial Judge at Indianapolis exceeded n.s pow-

The recommendation that Dyer's bill be defeated is made in the report of the Committee on Amendment of Laws, which said: "The glaring and numerous mis

carriages of justice in civil and criminal actions in our own State courts, where a trial Judge is nothing but a referee, and where the is a warning against the propose change.

"Without meaning in anywi to disparage the present jury system, we are forced to the conclusion cases, because of his inexperied and quite often because of his the average juror a lows considerations to influence hi judgment that have no bearing the issues involved."

Added Duties of Court. The committee notes with regret that recent legislation has added to the duties of Federal Courts the enforcement of laws which resemble "police regulations, and it the performance of these addition

al duties the Federal Courts have taken on somewhat the aspect of a

Police Court."

John M. Goodwin is chairman of this committee, other members being J. Hugo Grimm, Charles M. Hay, Lambert E. Walther and Charles B. Williams. The reports are addressed to George C. Willson, president of the bar associa-

COUNTY ANNEXATION LEAGUE HEAD ASSAILS FREEHOLDERS

Speaking in support of the St. Louis County Annexation League's proposal to have the voters of Missouri amend the Constitution by initiative at the November election to bring about merger of St. Louis and St. Louis County, Joseph Forshaw, president of the league, said to the West End Business Men's

Association last night:
"You can hope for little from of Freeholders; they do not represent you and me, they represent politicians and present and prospective jobholders, and they are ab-solutely dominated by the same boss that dominated their appoint-ment. Your hope lies in the initiative, going direct to the people with the kind of merger you wish.

"Do not be deceived by talk of county freeholders that you have to wait five years if the freeholder do not agree on a scheme. Let us have a vote and the matter will b settled. If defeated, the annexatime to come and county projects to supply certain public needs can go forward. They are not friends of the county but bitter enemies

who strive to keep this from a straightforward vote:

"Taxation of farms is the first bugbear raised to scare the county people. There are 4000 farmers in the county and 131,000 urban dwellers; what about the rights of the 131,000 whose taxes are higher than in the city?"

"A thing he said once to me lingers in my memory, because, as one knew later, it was terribly true. He had been talking to me about his little sons. 'I was telling them stories last night,' he said, 'of little boys who were naughty and who made their mothers cry, and what dreadful things would happen to them unless they became better, and do you know what one of them answered? He asked me what punishment could be reserved for naughty papas who did not come home till the early morning, and made mother cry far more?"

Her last meeting with Wilde was also in Paris, three years after his downfall. Here is how she describes it: "There lurched around the cor-

Sanitary Housekeeping HE disposal of garbage is al-

cut that too, too sweet taste, don't ways a vital question and is a daily problem in every house-hold. To establish an incinerator is rather expensive for the small family who really do not need such an elaborate solution. Many do not have the room for the extra apparatus. On a large country place, the matter is readily taken care of. Vegetable matter that decays can be put in deep holes dug in unplanted portions of the garden to be covered in after several weeks of sun drying.

Now for the question of climination! Tin cans and papers are not garbage. A well-cared-for garbage can is never objectionable in a kitchen, if emptied daily. A can set on a back porch or even buried nearby and kept covered draws flies, and attracts stray animals. On rainy days it is also rather inaccessible.

If a little dry, slaked lime is thrown into the garbage hole frequently there will be no odor arising from it during the sun-drying process. If melon rinds are cut in several pieces before being thrown out into the hole they will dry away much more quickly. The bucket in daily use should

be rinsed out with hot water every time it is emptied during the summer to keep it sweet and clean. Once a week it should be boiled out with soda water. There are many new types
